A response to their cooperation in shelling the Muslims

Ansar Al-Sharia sends painful strikes to the Sana'a regime forces

The Ansar Al-Sharia mujahidin last week conducted many successful attacks on the targets of the Sana'a regime forces. This powerful response was for the treachery of the crusaders who killed 20 mujahidin due their continuous attacks on the two Wilayahs Al-Bayda'a and Abyan.

A military source in Ansar Al-Sharia confirmed that the most important of these attacks occurred in the Al-Bayda'a province on 20 Rabī` Al-Ākhir. The mujahidin stormed the Al-Arif post of the Republican Guard and Emergency forces which are located between Al-Sawadiya region and center of the capital. The attack began by detonating a bomb car driven by a martyrdom seeker. This was followed by an attack by the mujahidin with machine guns on those who remained in post. This resulted in the death of 27 soldiers from the Republican Guard and the capture of one soldier. Two other soldiers fled while three mujahidin gained martyrdom while another was honored by injury. The mujahidin seized, with the grace of Allah, a cache of medium and light arms. They burned a armored, two military vehicles and rescue car.

He added that the attacks of the mujahidin also included the shelling of the Badr camp airport in Khor Mikasar in the Province of Aden with mortars. Also targeted were petroleum trucks of the enemy on the main road in the Horah region in the valley of Hadramout. The trucks were completely burned them after moving and gathering them to an uninhabited area. These various attacks came after a new chapter of the black crusaders hate crimes against the Muslims. This was after the crusade American drones killed 20 Ansar Al-Sharia mujahidin in two separate shelling in the beginning of last week. The attackers were in the two Wilayahs Al-Bayda'a and Abyan.

The military source said: "The shelling which the Al-Diq valley region occurred at 9 pm Friday night on the 16th of the past month. This resulted in the martyrdom of 17 mujahid was conducted by American warplanes and not Yemeni as was declared in some media outlets.

A Madad correspondent in Waqar in the Wilayah of Abyan stated that the city was exposed to two severe shellings; the first on the morning of Saturday the 10th of March and the second on Sunday night the 11th of March. The second attack resulted in the martyrdom of three mujahidin, the burning of a farm of one of the Muslims and the destruction of an old soldier carrier truck.

Moving the bodies of the martyrs in the American raid on Al-Bayda'a

It is worth mentioning that Ansar Al-Sharia had warned earlier that the Yemeni government might shell its captive soldiers, that were being held by the mujahidin, in order to prevent them from them from being used to gain the release of mujahidin prisoners in the jails of the National and the Political Security. However Ansar Al-Sharia holds the government of Sana'a and the American ambassador responsible for any harm that happens to the captive soldiers due to the shelling that occurrs on the locations of their presence in Waqar.

After the increase of talk about dialogue with them

Ansar Al-Sharia calls the Muslims to visit the regions that they rule

Ansar Al-Sharia addressed an invitation to all the Muslims all over the world to visit the regions that they rule in the two Wilayahs of Abyan and Shabwa. This is to see the model of implementing the Sharia in it.

One of the officials of Ansar Al-Sharia clarified that they intend from this invitation to make the believers happy and allow them to see the implementation of the Sharia according the Book and Sunnah. This is evidence that implementation of the rulings of Allah in modern times isn't a quiet hard as it is being pictured by the enemies of religion to please their masters the crusaders. The mujahidin stated that they will be happy to receive any constructive advice from everyone, especially the Ulema; who are responsible in the first place before Allah Almighty to establish the Sharia and to defend its banner wherever it was found.

And he stated at the same time that this invitation comes as a practical response to the misconceptions which are raised by the United States and the Sana'a government in the media of the tumult of the mujahidin implementing Sharia in the regions that they control. They fear that the truth would appear and Ansar Al-Sharia would gain more sympathy and support. This would mean the spread of the rule of the Sharia to wider spaces of land, which disturbs the Americans and their agents.

It is worth mentioing that the invitation of Ansar Al-Sharia to all the Muslims to visit the regions which they rule. This comes after demands of some analysts, politicians, Ulema, along with members of political streams that disagree with them to have dialogue with the mujahidin. Some of the human rights organizations talk about the necessity of giving Ansar Al-Sharia a chance to present their experience in rule without being a target for a war on behalf of America. Since they carry a liberating project derived from the soul of the society and its identity according to the officials of these organizations.

The banner of lā ʾilāha ʾillà l-Lâh, Muḥammadun rasûlu l-Lâh raised in the regions of Ansar Al-Sharia

He called the human rights organizations to visit them and see their conditions

A commander in Ansar Al-Sharia deny that the captive soldiers held by them are badly treated

A commander in Ansar Al-Sharia denied the news that circulated lately about the Sana'a captive forces held by them were two weeks ago exposed to bad treatment in the locations that they are imprisoned by the mujahidin. He denied what has been said about killing of some of them and the releasing of others.

The commander said: "Previously we have confirmed that these captives are receiving good treatment which we have been ordered by Allah Almighty and His prophet may peace and blessings of Allah be upon him; they are eating from what we eat, and drink of what we drink, and wear from what we wear." He stated that Sana'a government is trying by instigation from the Americans and collusion from some Yemeni media to run in their orbit and to provoke the public opinion against the mujahidin; and to show them in an image of instant to kill the soldiers of Sana'a in order to distort the image of the mujahidin and isolate them from the general Muslims after the crusaders. Their agents in Sana'a were infuriated for the people convoluted around the mujahidin after they touched from them sincerity and truthfulness in the implementation of the Sharia of Allah and improving their life conditions.

He said: If Ansar Al-Sharia wanted to kill these soldiers they would have done that from the beginning and dropped from their soldiers the trouble of subsistence and maintaining the security of 73 soldiers captured by them. Before all that preserving the life the mujahidin after it became clear to everyone that the American drones in the recent continuous shelling that targeted the Khanfar mountain region where these captured soldiers were located. This resulted in the martyrdom of three mujahidin as we reckon them to be "emphasizing that Washington and Sana'a want to kill the soldiers and not the mujahidin who are only demanding the release of their prisoners in the Yemeni Political and National Security prisons. In return for pardoning these captives and releasing them by the mujahidin which are just demand according to him.

A group of the Yemeni army captives held by Ansar Al-Sharia

The commander in Ansar Al-Sharia at the end of his statements called various human rights organizations and journalists from to visit Waqar and to see the real conditions of the captive soldiers; and to be sure that they are treated well. Unlike what the prisoners of the mujahidin are suffering from in the prisons of the crusaders and the Tawagit from various kinds of torture and psychological and physical abuse.

After it had been subject to negligence for long years in time of the Sana'a regime

Completion of the two projects of renovating the electricity network and connection water pipelines in Waqar

The new electricity wires that were installed

Connecting the water pipelines in the city of Waqar

The city of Waqar in the Wilayah of Abyan recently has completed two projects of the total renovation of the network of ground electricity lines and connection of water pipelines inside the neighbors city.

The Madad correspondent ensured that the goal of the project of renovating the electricity lines , which Ansar Al-Sharia bear its costs fully, is to lift the suffering of the people of Waqar who were very much affected from the electricity breakdowns because of the deterioration of the electricity connection lines. This is because of long years of negligence by the Ali Saleh government to repair and renovate it. For clarifying that Allah Almighty graced the mujahidin to complete the project in a record time and before the coming of the summer season. During the summer season pressure increases on the electricity networks because of the increase of using the air mitigation machines by the locals.

He stated that Ansar Al-Sharia will bear all the costs of implementing the project of connection of the water pipelines in Waqar . This was implemented in the region located behind the Al-Jabi station in order to facilitate the Muslims by delivering water directly to neighborhoods which are deprived of it. This is considered a quantum leap to them and ensures that locals in these neighborhoods who were forced to buy water at their own expense from cars that distribute the water to meet their major needs. After the financial and administrative corruption during which time the central government deprived them from the simplest municipal services in getting water and electricity.

It worth mentioning that the people of Waqar and its outskirts expressed their great satisfaction and happiness towards the cooperation of Ansar Al-Sharia with them. Especially when they provide services to repair the electricity network and water pipelines in the city; and they ensured that they want their city to be ruled by the Islamic Sharia.
